ARN

"The Association of Rehabilitation Nurses (ARN) promotes and advances professional rehabilitation nursing practice through education, advocacy, collaboration and research to enhance the quality of life for those affected by disabilities and chronic illness."

Established in 1974 with the goal of providing education and professional networking. ARN offers its members many benefits including: Annual Education Conferences, Rehabilitation Nursing, Leadership Courses/Programs, Rehabilitation Nursing Journal; ARN News, & Certification to name but a few.

ARN has more than 75 chapters, throughout the United States, which offer local educational opportunities and networking. The Florida Chapter is unique in that we have our main chapter – FSARN and several "districts". These districts are designated by geographic area to best meet the needs of our members. At present, we have 12 active districts with almost 400 members. FSARN thus offers a "tri-level membership" – ARN-FSARN-District.

Chapter dues are paid directly to ARN while each individual district in FSARN sets their own dues and they are paid at the local district level. If you live in an area where there is no district, you may maintain a bi-level membership status.

FSARN Chapter Benefits

- Networking among rehabilitation nurses in Florida
- Annual educational conference in Orlando each May.
- Newsletter 3 times a year
- Regional Conference every other year
March of the even year
- Scholarships for:
CRRN exam
Educational goals
